HAMILTON, CANADA, WEDNESDAY, FEBRUARY 16. 1916.

ITALY GAINS IN INTENSE ARTILLERY DUELS ON ISONZO FRONT Reorganized Russia In Magnificent Condition to Carry On Prolonged War

RUSSIANS HAVE TAKEN NINE ERZERUM FORTS

The Great Turk Stronghold In Armenia In Bad Plight.

Big Gun Duel On Isonzo-Roumania Recalling Men.

While France and Flanders are the fields of military activity that just now command chief attention, the operations of the Russians in their Gaucasus campaign are developing notable points of interest. The newest development comes with Petrograd's announcement of the capture of min of the forts of the Turkish stronghold of Erzerum, the chief city of Turkish Armenia.

Late last month the Turks were driven back to the Erserum de-faces by the Russian pressure, and there have been reports that 80,000 men were locked up in the city, with not more than two weeks' provisions on hand. Reinforcements, however, were said to be on the way, and they may have reached there by this time.

Military critics link the operations of the Russians in this campaign and that in Pervis with the British struggle in Mesopotamis, pointing to possible convergence of the Allied Gross. The British Mesopotamia armies, for their part, appear to be making little progress on the Tigris, atthough announcement was made in London yesterday that the situation of their forces there was improved.

Not much attention was paid for many months to the Caucasus spaign, the Russiens apparently having small forces: in the dis-st. With the appointment of Grand Duke Nicholas to the chief numand in this field of war, however; it was hinted that important selegaments night be locked for, and within the past few weeks the sian advance has been Taken. Along adverse weather con-ous are declared to have interfered seriously with the operations.

THE WAR SITUATION.

THE WAR SITUATION.

Lord Kitchaner told the Home of Lords last evening that notwithstanding the threateness of the Indiana from the threateness of the Indiana from the Indiana from the Indiana from the Iring line there had been considerably increased, eight new divisions being now in France. He also stated that ample provision had been made for the defence of the Suer Canal, and against the threatened invasion of Egypt, He had nothing to any of the Balkana. At the same time Premier Asquish was tailing the House of Commons that jie was as sure of ulfimeter, placing in the was sure of ulfimeter, placing in the was sure useful filler. the overseas forces. While these gen-tlemen were thus addressing the na-tion, Sir Douglas Haig was reporting that the Germans had driven back his troops six hundred yards in the Tyres sellent and broken into the front Brit-ish trenches. This action, taken in conjunction with the attacks on the French in the Chemmann district.

The Chicago Tribune says that the State Department's position respect-ing guns carried by merchantmen will commend itself to the common sense and sense of justice public, and it adds:

The gist of the matter may be expressed in the question: "If merchantmen are armed, what are they armed against!"

Morchantmen are armed against sub-

against?
Morchanimen are armed against aubmarines and against submarines only, and the fragility of the sub-surface beat is so great that a single blow may be falal to it, and a gun of small calibre as effectual sis a 4-inch.

RIZONA, where a Prohibition amendment to the State Constitution has recently been passed, is the first State to attempt shutting out liquor completely, the law being so framed as to make it practically impossible for anyone legally to obtain it. Where other Prohibition States, such as Maine and Kansas, allow it to be shipped in from the outside for personal use, merely forbidding the local sale, the law of this State provides that liquor shall "not be manufactured in or introduced into the State of Arizona under any circumstances," anything and everything containing alcohol for food or beverage uses, for sacramental or medicinal purposes, being barred out by the officials. A little while ago, for example, the State Attorney General was asked for an opinion as to whether it was legal to sell mince pie and plum pudding containing alcohol, and he declared it was not.

What Could Be More Ridiculous?

BISBEE "REVIEW" JAN. 2, 1915

Arizona is a dry State in name only, it is in fact an intemperate State. Enough of hypocrisy! Arizona is guilty of false pretunes when she permits her name to be heralded broadcast among the standard bearers of temperance.

Prohibition in Arizona has not prohibited.

T HIS shows the ridiculous side of the matter; but there is a very serious side when one considers that wine, that is, the fermented juice of the grape, is deemed by various great Churches as absolutely necessary in the celebration of the Holy Communion. The priests of these Churches, therefore in their efforts to obtain wine, will find themselves, under this regulation, classed as lawbreakers. Whether this is consistent with the Federal and the State constitutions, which quarantee religious liberty to all, it is not guarantee religious liberty to all, it is not our purpose to discuss.

And This is the Goal of the Prohibitionists

T HE point is that Arizona approaches more nearly than does any other State the ultimate goal towards which prohibitionists, by their own confession, are working in Ontario and elsewhere. It is, in fact, the ideal at which they are aiming.

Yet, sad to say, that this thoroughgoing legislation is proving to be absolutely ineffective is evident from the newspaper clippings herewith. The Bische "Review," which worked to obtain it comes out futly against such prohibi-
